THE MANAGEMENT TEAM

The Scientific Scholar management team has a combined editorial experience of more than 40 years and understands the need of the authors and the audience. The team works with the editors and guides them in the process of publication from conceptualization to print.

Dr. Vikram Dogra
Founder & Managing Director

The founding director of Imaging Science Today LLC. and Scientific Scholar LLC. Dr. Vikram Dogra, MD currently serves as a Professor of Radiology, Urology and Biomedical Engineering at the University of Rochester, NY, USA and an Affiliate Professor at Chester F. Carlson Center for Imaging Science, Rochester Institute of Technology, Rochester, NY. He is also an Associate chair for Education and Research and the Director of Ultrasound. He is certified in Diagnostic Radiology by the American Board of Radiology and fellowship trained in cross-sectional imaging. His imaging experience spans 29 years. He has more than 200 peer-reviewed publications and has delivered more than 300 international invited lectures. He has been honored by many radiology societies and is a fellow of four Radiology societies.

Mr. Pritesh Sheth
Founder & CEO

He brings 18 years of publishing experience and is the founding director of Scientific Scholar. He has a strong technical background and was the brain behind the success of Medknow, ultimately bought by Wolters Kluwer, USA. He has been in charge of more than 400 journals in Medknow/ Wolters Kluwer. He believes in technological advancement in the publishing industry and offers the best experience to the authors, editors, and reviewers for a seamless publishing experience. He also has an MBA to add to his laurels.

Hemant Manjrekar
Director Operations and Quality

He brings more than 16 years of publishing experience. Prior to joining Scientific Scholar, he was instrumental in acquisitions, renewals and strategy development for journals at Wolters Kluwer-Medknow. He also brings the expertise in maintaining statutory compliances for legal existence of a journal. He also has an MBA to add to his laurels.

MANUSCRIPT MANAGEMENT SYSTEM

The Scientific Scholar’s manuscript management system has a number of features that arise as a result of years of publishing experience of the core team.

The manuscript management system, which helps the Editors to handle the complex nature of manuscript management such as technical editing, reviewer management, review of the articles and their publication. The system is intuitive and has a very short learning curve. This manuscript system can be adapted to medical, paramedical and allied subjects. Our manuscript management system allows the journals to function smoothly by facilitating authors to submit their manuscripts, reviewers to perform double-blind peer reviews and the editors to conduct their editorial functions in an efficient manner.

OUR PROMISE

- Prompt and timely service.
- Complete transparency.
- Work with an extremely experienced team of professionals who understand your language and subject.
- Prompt evaluation of your proposal and stepwise guidance.

OUR SERVICES

- Provide manuscript management system for managing the journal publication.
- Production services such as page layout, formatting, copyediting and HTML conversion and PDF generation for publishing.
- Printing and mailing of the journal to the members of the society.
- We work with the society and the journal editors on various aspects of ethics compliance, good publishing practices and advise them on Indexing requirements.
- Indexing service to file the applications to various indexing and abstracting agencies.

ADVANTAGES OF THE SCIENTIFIC SCHOLAR’S MANUSCRIPT MANAGEMENT SYSTEM

Our manuscript management system has several advantages over the existing systems in the market.

- Easy manuscript submission allowing for the capture of manuscript metadata, forms, and files.
- Reviewers can accept or decline assignments, without even logging in, via secure deep links.
- Plagiarism check is available to the editors and reviewers.
- Automatically link submitted references to CrossRef® and PubMed, and reformat to journal style.
- Save time in the reviewer discovery process with built-in database integrated into the manuscript management system.
- Editorial dashboard offers quick visualization of key data.
- Drag and Drop functionality.
- Article Processing Charge can be easily paid from any part of the world using our PayPal integration in the system.
- Integration with standards such as ORCID and JATS available.
- Personalized client service and online training in the use of the manuscript management system.
- Author home page provides status information as a manuscript moves through the review process, reducing the need for authors to contact editors for status updates.
- Editor home page tracks and provides information on all manuscripts in the system, enabling editors to easily manage their workflow.
- All correspondence and data are stored and backed up electronically.
To start a new journal please fill the form and submit on [https://scientificscholar.com/proposal.php](https://scientificscholar.com/proposal.php).
